Aeneid XII.791-802

Iunonem interea rex omnipotentis Olympi

adloquūtur fulva pugnans dē nube tuentem:

“Quae iam finis erit, coniunx? Quid denique restat?

Indigetem Aenean scis ipsa et scire fateris

795 deberi caelo fatisque ad sidera tolli.

Quid struis? Aut qua spe gelidis in nubibus haeres?

Mortalin decuit violari vulnere dīvum?

Aut ensem (quid enim sine tē Iuturna valeret?)

ereptum reddi Turno et vim crescere victis?

800 Desine iam tandem precibusque inflectere nostris,

ne tē tantus edit tacitam dolor et mihi curae

saepe tuo dulci tristes ex ōre recursent.

Aeneid XII.803-818

Ventum ad supremum est. Terris agitare vel undis
Troianos potuisti, infandum accendere bellum,
805 deformare domum et luctu miscere hymenaeos:
ulterius temptare veto.” Sīc Iuppiter orsus;
sīc dea summisso contra Saturnia vultū:
“Ista quidem quia nota mihi tua, magne, voluntas,
Iuppiter, et Turnum et terras invīta reliqui;
810 nec tu me aeria solam nunc sede videres
digna indigna pati, sed flammis cincta sub ipsa
starem acie traheremque inimica in proelia Teucros.
Iuturnam misero (fateor) succurrere fratri
suasi et pro vīta maiora audere probavi,
815 nōn ut tela tamen, nōn ut contenderet arcum;
adiuro Stygii caput implacabile fontis,
una superstitione superis quae reddita divis.
Et nunc cedo equidem pugnasque exosa relinquo.

Aeneid XII.819-833

Illud tē, nulla fati quod lege tenetur,

820 pro Latio obtestor, pro maiestate tuorum:

cum iam conubiis pacem felicibus (esto)

component, cum iam leges et foedera iungent,

nē vetus indigenas nomen mutare Latinos

neu Troas fieri iubeas Teucrosque vocari

825 aut vocem mutare virōs aut vertere vestem.

Sit Latium, sint Albani per saecula reges,

sit Romana potens Itala virtute propago:

occidit, occideritque sinas cum nomine Troia.”

Olli subridens hominum rerumque repertor:

830 “Es germana Iovis Saturnique altera proles,

irarum tantos volvis sub pectore fluctus.

Verum age et inceptum frustra submitte furorem:

do quod vis, et me victusque volensque remitto.

Aeneid XII.834-842

Sermōnem Ausonii patrium moresque tenebunt,

835 utque est nomen erit; commixti corpore tantum

subsident Teucri. Morem ritusque sacrorum

adiciam faciamque omnes uno ōre Latinos.

Hinc genus Ausonio mixtum quod sanguine surget,

supra homines, supra ire deos pietate videbis,

840 nec gens ulla tuos aequē celebrabit honores.”

Adnuit his Iuno et mentem laetata retorsit;

interea excedit caelo nubemque relinquit.

Aeneid XII.887-902

Aenēās instat contra telumque coruscat

ingens arboretum, et saevo sīc pectore fatur:

“Quae nunc deinde mora est? Aut quid iam, Turne, retractas?

890 Nōn cursu, saevis certandum est comminus armis.

Verte omnis tete in facies et contrahe quidquid

sive animis sive arte vales; opta ardua pennis

astra sequi clausumque cava tē condere terra.”

Ille caput quassans: “ Nōn me tua fervida terrent

895 dicta, ferox; di me terrent et Iuppiter hostis.”

Nec plura effatus saxum circumspicit ingens,

saxum antiquum ingens, campo quod forte iacebat,

limes agro positus litem ut discerneret arvis.

Vix illud lecti bis sex cervice subirent,

900 qualia nunc hominum prodūcit corpora tellus;

ille manu raptum trepida torquebat in hostem

altior insurgens et cursu concitus hērōs.
